PROFESSIONAL SUMMARY

Certified Safety Officer with over 8 years of HSE experience on Oil & Gas, heavy lifting, construction and infrastructure projects in Qatar. Proven in Permit-to-Work control, risk assessment (JSA/JHA), lifting and excavation safety, confined space entry, equipment inspection and incident investigation, with NEBOSH IGC, NEBOSH Process Safety Management and TBOSIET qualifications. Committed to a strong safety culture, regulatory compliance and zero harm on construction and maintenance work.

PROFESSIONAL EXPERIENCE

HSE Officer | Marbu Construction WLL

11/2025 – Present

Doha, Qatar

- Supervise daily HSE operations on construction works, ensuring compliance with Qatar HSE regulations and international safety standards.
- Monitor Permit-to-Work (PTW) systems, lifting operations, crane activities and excavation works to keep high-risk tasks under control.
- Conduct workplace inspections, HSE audits and risk assessments; track contractor compliance.
- Investigate incidents and implement corrective actions.
- Deliver toolbox talks, safety inductions and HSE training; coordinate emergency response drills.
- Prepare HSE reports and maintain compliance records.

HSE Officer | NOB Heavy Lift Qatar

10/2023 – 09/2025

Qatar

- Ensured compliance with Qatar HSE regulations and international standards during crane and heavy lifting operations.
- Reviewed lifting plans, risk assessments and method statements.
- Monitored PTW systems to ensure safe execution of works.
- Inspected lifting equipment and accessories; conducted daily site inspections and lifting audits.
- Ensured lifting areas were barricaded and signed off with a competent lifting supervisor, with a rigger in place.
- Delivered toolbox talks and safety inductions; investigated incidents and implemented corrective actions.
- Maintained HSE reports and safety statistics.

HSE Officer | Boom Construction Company

03/2018 – 09/2023

Doha, Qatar

- Implemented project HSE plans, policies and procedures.
- Ensured compliance with the PTW system; monitored PPE compliance and housekeeping standards.
- Performed risk assessments, JSA and JHA; conducted daily workplace inspections and HSE audits.
- Ensured underground utilities were identified and protected before excavation.
- Inspected fire extinguishers, lifting accessories, hand tools and equipment.
- Investigated incidents, accidents, near misses and unsafe conditions.
- Delivered toolbox talks, pre-task briefings and safety inductions; coordinated emergency response and evacuation procedures.
- Prepared HSE reports and maintained safety records.

EDUCATION

B.Sc. Mechanical Engineering — Delta State University, Oleh, Nigeria

03/2010 – 01/2015
